SKILLS

- Programming Languages : Python, Java and JavaScript.
- Front-end technologies: HTML, CSS, Bootstrap, Angular framework, Tkinter.
- Back-end technologies: Node.js, Express.js, RESTful API, Postman, Stripe.
- Database: MongoDB and SQL.

PROJECT

Restaurant Billing System In Python Using Tkinter 2023

- The Tkinter library is used for the GUI in this project, and we are able to create a bill and store it for future reference. The OS package is used for printing and emailing the client who has been purchased.
- This project is straightforward and computes the total product price with GST.
- After finishing my Python course on LiveWire India, this is the first project I completed.

Advanced QR Code Generator 2023

- Simple HTML, CSS, Bootstrap, and JavaScript are used in this project.
- You can alter your QR code's size, color, background, and error correction in this project.
- JavaScript is used to retrieve the imported QR code library.

WORK EXPERIENCE

VEBBOX Software Solutions 2024

Intern 2024

- Gained understanding of software company operations.
